

Call For Abstracts Details

The ITS TN Event Committee is happy to announce the official Call for Presentations for this meeting! You are invited to submit your innovative experiences, operational improvements, and creative projects for inclusion in the technical program. For information on submission, please see details below:

PRESENTATION OUTLINE SUBMISSION DEADLINE: March 15, 2025

Presentation outlines, or abstracts, are now being accepted. Presentation outlines must be original and up-to-date, and unique to this conference. Presentations outlining projects or technology from many years' past will not be permitted. The selection committee will only review and select the original content presentations for inclusion into the program. The presentations should be engaging to the audience with a highly graphical format, including pictures, video, charts and graphs.

The one-page presentation abstract, shall be submitted by March 15, 2025. You will not be required to submit a full multi-page technical or scientific paper. Instead, it is asked that abstract submissions include a synopsis of the presentation content, including short project or technology details. The presentation abstract will serve as the primary way to evaluate and select the presenters.

The presentations will be limited to 20 minutes (including 5 minutes for Q/A), though this range may vary +/- 5 minutes based on presentations received and session topics. The idea here is quality not quantity.

HOW TO SUBMIT A PRESENTATION OUTLINE

- You can submit a one-page presentation outline to technical committee:
technical.committee@itstn.org
- Presentation outlines must be submitted by March 15, 2025.
- Presentations will be subjected to a peer review process and presenters will be notified by April 1st, 2025.
- Selected presenters will be asked to submit short Bios for presentation introductions.
- All accepted and invited presentation authors are required to register and pay accordingly for the meeting. If special assistance is required, please include that in your submission email.
- If you have any questions, please reach to the technical committee:
technical.committee@itstn.org
